

June 11, 2007

Dear Mark,

RE: CIPS Regina Spring Seminar - 2007

Thanks again for participating in the annual spring seminar for the Regina section of CIPS (Canadian Information Processing Society). Many positive comments were received for both the keynote session - "Flow with the Go! Change for the Better" and the full day workshop - "The Future of Teamwork in IT".

Your efforts to customize your material to our audience were appreciated and proved very successful. The group output from the workshop that you made available for posting to our membership was also a valued contribution. It was a pleasure to deal with you throughout.

On behalf of the CIPS Regina Spring Seminar 2007 Committee, I would like to pass on our thanks for your contribution to the success of our seminar.

Sincerely,

Randy Rein, I.S.P.  
Co-chair, CIPS Regina Spring Seminar 2007
