Byrd,

I just wanted to thank you for the positive impact you've recently had on my life. I have been in a rut lately, and hearing you speak has helped get me back on track. I was starting to develop a negative attitude, and was not treating the people around me the way they should be treated. The worst part of all is, until I heard you speak, I didn't even realize what was happening. Sometimes we just need to hear the right way to do something, before we can see that we have been doing it wrong. I now have a new enthusiasm about my business and personal life. I feel refreshed. I have become a better husband, father, friend, and leader of my business from listening to you speak. You have positively impacted my life and the lives of those around me, for this, I am truly grateful and forever indebted.

I brought several of my team, including my brother, with me to hear you speak. Hearing you has also had a tremendously positive impact on their lives. The office now has more energy, enthusiasm, and our spirits are higher. We are friendlier to each other and our customers. We are excited about growing our business and it shows. I have even heard them talking about how hearing you has helped their personal lives, and some are even sharing your book & workbook with their spouses.

I guess my brother summed it up best when he said "best I have ever heard". I have heard many great speakers in my life (Norman Schwarzkopf, Magic Johnson, Zig Ziglar, etc.), but I can honestly echo what my brother said, you are the best I have ever heard.

Thank you & God bless you,

A handwritten signature in cursive that reads "Andy Malone".
