Hi Frank;

You did a super job! Thank you for spending the day with us and lightening up the room!

The nurses got a very good laugh and you even had the docs laughing too...no easy task! I will send a note to Dr Banerjee and see what we can get from her. Hang tight.

Subject: The Symposium

Andrea and Kate,

I had a ball at the Vascular Symposium, and it sounded like the attendees did as well. The article should run in the Register Guard, Springfield Extra section, on Thursday October 11th.

If it's not an imposition, I'd love to have a short note, or email, of recommendation from Dr. Banerjee. She came up to me after the show and said how much she thought everyone enjoyed and related to my material (she was also asked a few questions by the reporter from the Register Guard...I'm betting she'll be quoted in my story). Should I contact her directly?

I attached my new one sheet (I mention the incredible crew at OHVI).

Thanks for the booking!
