

Unite. Uplift. Inspire.

Drum Cafe is a unique, hands-on approach to team-building, learning, and motivation that draws parallels between what it takes to make music and what it takes to work together in an organization, community or "tribe" to achieve a unified goal!

Rhythm is within each one of us. Because music is a universal language that we all understand, it transcends all of those barriers, traditional or otherwise, that tend to come between people whether professionally or personally.

Making music together encourages you to be sensitive to what those next to you are doing. In this way drumming helps create a rhythm that bonds and builds a team as each member recognizes one's own importance to the success of the whole. Not only is everyone valued for his or her diversity and uniqueness, but when everyone drums together in unison, it is clear that the whole is greater than the sum of its parts.

Drum Cafe is not a venue...

It's an unforgettable experience that travels to wherever YOU are

"Your participation in Intel Marketing Summit was a raging success. People are still talking about it, the way you brought everyone together, and the energy and enthusiasm that resulted. Thanks again for helping make our event among the most successful ever organized at Intel."

Terry Scalzo,
Intel

CORPORATE KEYNOTES

All of our corporate programs are designed to spark unity- reigniting determination, enhancing loyalty and boosting attitude- among staff members and partners. Our consultative keynotes are customized to integrate your conference messaging throughout the program.

PURE ENTERTAINMENT

We offer high-energy interactive rhythm experiences during which we can utilize drums, percussion sticks, shakers, or simply hands and feet. We also provide upbeat, non-interactive performance to kick up and keep the energy high at the event!

EDUCATIONAL PROGRAMS

Our programs are high-impact, memorable, educational and extremely fun! They bring home powerful bonding lessons that can forever change the morale of the entire academic community- faculty, staff and students.
