

## TESTIMONIALS

*The most dynamic, energetic and relevant sales keynote we've ever had.*

*Fantastic job! The keynote was worth the standing ovation. Your takeaways will take us it to the next level.*

*Ryan was hands down one of the best speakers we have had. His knowledge of our industry and his ability to touch every attendee with either knowledge or emotion is a phenomenal skill for any speaker. We have not had a speaker who took the extraordinary steps to prepare for a presentation that Ryan took. His questions of our industry, company and attendees were unprecedented in our event planning experience.*

*Thank you so much for a phenomenal session. Our IM was blowing up with rave reviews from the team. This was exactly the inspiration we needed to get fired up for the quarter and the year. Your unique approach of combining actionable insights with powerful stories drove the message home for the team.*

*It's often said that people remember how you make them feel more than what you say. On behalf of the entire team at CDW I want to thank you for making each and every person feel in control of their success, in charge of their emotions and responsible for the next action step in their journey to success. You were memorable, relevant, energizing and authentic. Thank you for bringing your best self to CDW!*
