

Dear Eric,

Your presentation on **"Moving to Great"** was just what our organization needed! You did an "AMAZING" job!!! The halls were buzzing and you were spot on with your entire message.

As we kicked off our first career week, it was important for participants to understand the importance of owning their own career, building their own brand and unlocking the potential they already have. Eric, your personal storytelling and sense of humor resonated with everyone in the audience and based on feedback we've received – you helped us achieve our goals!

A few participant comments received include:

"Eric Boles was very engaging. I took away tips on how to take ownership of my own career and to not make excuses."

"The passion behind his message matched the passion team Hasbro has getting our jobs done!"

"It made an impression on me that he had reinvented himself after a career in sports. That was very inspirational and relevant to me professionally and personally!"
