

Max Stanley Chartrand, Ph.D.
Behavioral Medicine

A **FREE** CONSUMER SEMINAR

HOW TO GET WELL! (no matter what ails you)

"Introducing Dr. Mitochondria, the doctor inside us all!"

TUESDAY—JULY 10th, 6:00-8:00pm

SIRACLE® Wellness Classroom
820 West Cottonwood Lane, Suite #6
Casa Grande, AZ 85122

RSVP (520)509-6380

Do you suffer from fibromyalgia, back or neck pain, foot pain, bone spurs, unhealed injuries, diabetes mellitus type 2, restless legs, peripheral neuropathy, rheumatoid arthritis, depression, inflammation, memory or cognitive loss, stroke, chronic pain, multiple sclerosis, acid reflux, gout, IBS, carpal tunnel, or any of a host of other chronic ailments?

If so, you and your guests are invited to join us for a fantastic *free* consumer seminar titled *"How to Get Well (no matter what ails you): Introducing Dr. Mitochondria, the doctor inside us all"* to held at the SIRACLE® Classroom, 820 W. Cottonwood Lane, Suite #6, Casa Grande.

The seminar will bring the latest research to light showing how the human body has tremendous, often untapped power to heal itself of just any malady, *if* we provide its immunological players what they need to get the job done.

"The players in this fantastic drama," explains our instructor, "are Dr. Mitochondria, his DNA Interpreter he calls 'RNA', Oxygen Molecules that draw Essential Nutrients to the site of lesion, the SIR-
CLE® Cold Laser Therapist, and *you!*"

"The process is called homeostasis, and its mechanism involves narrow-spectrum lasered light, almost limitless DNA, RNA, essential fatty acids, and the protein building

blocks of life itself."

Among the hard-hitting research-based knowledge revealed in this seminar, you will learn how to:

- **Lose weight and reverse diabetes by adjusting to your DNA-type!**
- **Lift depression & improve memory with diet that generates anti-inflammatory cytokines!**
- **Build immunological resistance, restore lost myelin & overcome neuropathies of all kinds!**
- **Raise your body's cellular pH and watch pain go away without dangerous narcotics!**
- **Heal compression fractures, strains, bone spurs, straighten curved backs with cold laser!**
- **Learn how Dr. Mitochondria can heal you of almost anything that ails you!**

Our instructor will be *Max Stanley Chartrand, Ph.D.*, Behavioral Medicine, professor, research chair, author, and international lecturer on topics of chronic disease.

Dr. Chartrand believes that Americans are a terribly over-medicated society, suffering many chronic diseases that became acute only because treatments were designed to manage symptoms and side-effect instead of addressing the underlying causes of disease. In this seminar, he will reveal how one can put to work the powerful forces within the human body to restore a more perfect *you!*

So, come and join us for a dynamic consumer seminar that can potentially change your family's health status for the better. Call 520-509-6380 today to make your reservations as seating is limited. Be sure and bring your spouse and other family members and friends with you!

HOW DR MITONDRIA MAKES A PERFECT YOU!

When healing ^{really} becomes the goal...

- Antibiotics, steroids, surgeries, and narcotic painkillers would be used sparingly and primarily for acute cases.
- Diuretics, statins, anticoagulants, non-insulin DMII meds, steroids, NSAIs, antibiotics, etc. would be "bridges" to sustain us while underlying causes are investigated and addressed.
- Diet, hydration, and bioavailable nutrition would be medicine, and chelation, manipulation, rehabilitation, counseling, necessary surgeries, and a host of gentle approaches would become the main treatments of medicine.
- Underlying causes, biomarkers, and contributors would take priority over signs and symptoms in diagnostics.
- Patients would be routinely healed from hypertension, diabetes 2, arthritis, depression, neuropathies, cardiovascular, developmental and degenerative disorders .
- Disease and chronic illness would eventually become rare.

How Our Unique SIRCLE® Cold Laser Therapy Works to Heal Injuries

Most injuries and discomforts that cause chronic pain have several things in common. They lack oxygen and vital nutrients for repair, myelin sheath of the nerves is damaged, and suffering from inflammation and unresponsive mitochondria. In addition, bodies whose diet is primarily microwaved, irradiated, genetically modified, degermination, and synthetic fortification suffer universally from low cellular pH (acidosis) state. No healing program works for long while ignoring these underlying contributors.

At SIRCLE®, you start with a Video Otoscopy Biomarker, wellness, and Occupational Therapy profile. From there, targeted nutrition is suggested that provides the vital building blocks that your mitochondria will use for repair and restoration of vital functions when you utilize one of our unique SIRCLE® Cold Laser Therapy treatment packages.

Cold Laser Therapy is an FDA-cleared modality that heals, not just manages, a variety of conditions. It has a solid record of safety in the hands of a trained and Certified therapist. It differs from standard laser in several ways, the most prominent of which is that it utilizes controlled monochromatic light at frequencies of 630 to 950 nanometers (nm) as the therapeutic window. In this range, the light is least absorbed by the skin, allowing it to penetrate 2" or more into the body, stimulating mitochondria of the targeted region.

The stimulating effect of photons on enzymes and Adenosine Triphosphate (ATP) in the mitochondria causes secretion of serotonin as the marker neurotransmitter. This causes an "enzyme cascade" that excites light-sensitive cytochromes. These provide surrounding cells the extra energy to grow, regenerate, and to heal. Increased ATP initiates vasodilation that brings more blood, oxygen & other nutrients to the site of lesion at an amazing speed for faster healing.

Combined with SIRCLE® Occupational Therapy and Medical Massage, a wide variety of injuries and chronic conditions show remarkable response:

- Muscle strains/sprains, ligament/tendon injuries, open wounds/bone injuries, fractures, joint dysfunction & bone spurs.
- Neural conditions, such as diabetic, peripheral & idiopathic neuropathies, fibromyalgia, multiple sclerosis, neuralgia, and restless leg syndrome.
- Neck & back pain, for faster, more permanent relief within a specially designed Occupational Therapy program.
- Knee, leg and feet pain, along with a recommended nutritional supplement program that restores function while it relieves pain.

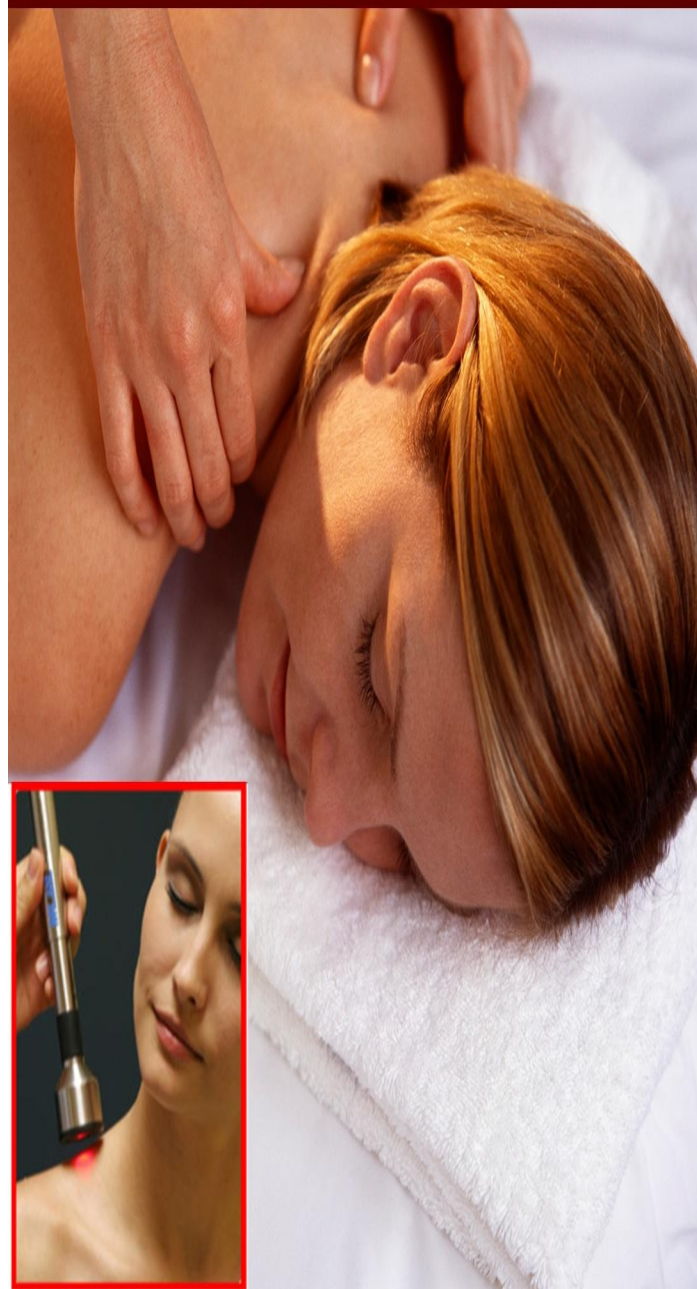

- Failed surgeries to the above areas, or where you have been having to have cortisone injections. A successful program reduces or eliminates the need for pain medication.

CALL (520)509-6380 FOR A NO-COST CONSULTATION AND ASSESSMENT FOR YOU & YOUR FAMILY TO FIND OUT HOW YOU MAY HELPED TODAY!

Are You in Pain?

SIRCLE Occupational Therapy & Pain Clinic

820 W. Cottonwood Lane, #6
Casa Grande, AZ 85122

"A Place of Healing"

CALL (520)509-6380 for free cold laser demo!

For those suffering from:

- ✓ Fibromyalgia ✓ Multiple Sclerosis ✓ Lupus ✓ Peripheral Neuropathy ✓ Diabetic Neuropathy ✓ Stroke ✓ Back Injury ✓ Shoulder & Neck Pain ✓ Herniated Discs ✓ Rotator Cuff Degeneration ✓ Knee & Hip Problems ✓ Carpel Tunnel & Overuse Syndrome ✓ Rheumatoid & Osteo-Arthritis ✓ Osteoporosis ✓ Facial Palsy ✓ and Much More!

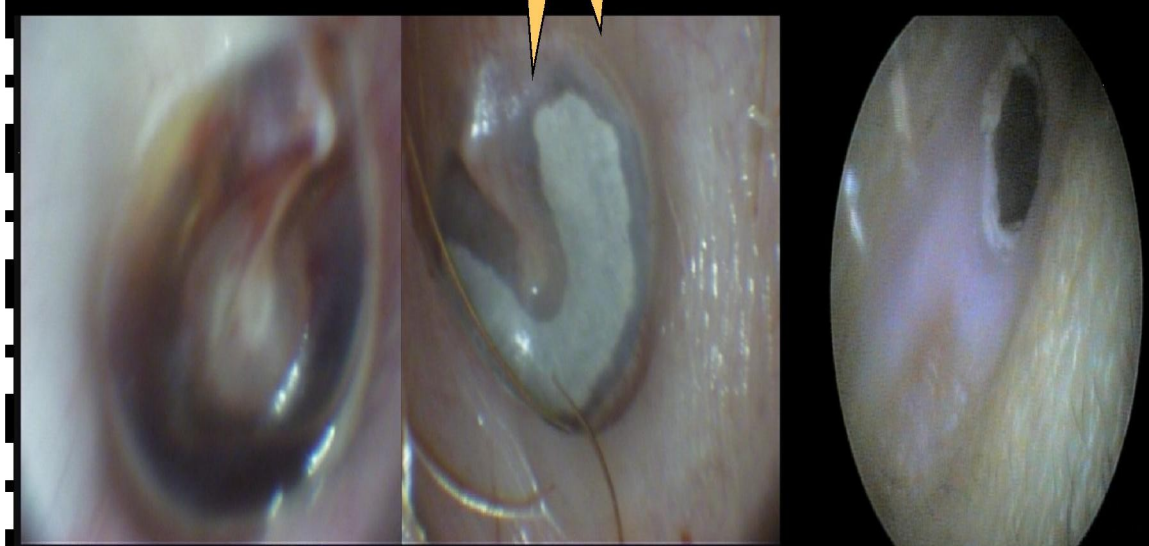

• For a limited time, SIRCLE Occupational Therapy is offering an *Introductory Special on Therapeutic Massage and Cold Laser Therapy Session for only \$75 (\$165 value).*

• Without surgery, drugs, or steroid injections, cold laser marshalls the body's healing power to the offending areas of your body for fast pain relief & healing!

• Provides lasting, healing results!
