

In just one morning, speaker Mike Hourigan packs as much punch as you'd get in a week-long seminar with other national speakers. Mike was engaging, disarming, instructive, stimulating, realistic, convincing, and humorous. The Chamber Business Summit was a big success because of Mike's content and delivery. The audience remained engaged the entire morning and wanted more when the summit concluded. That is a sign of a successful event.... guests staying after to talk with the speaker. Large business attendees from FedEx and The Boeing Company, as well as mom and pop enterprises, appreciated Mike's real-life delivery and factual information. He challenged all of us with his content.

Mike's topic, *Change: The New Hybrid Workplace (after Covid)*, was timely and pragmatic. His stories were simultaneously authentic and entertaining. He is accommodating, easy to work with and is worth every dime.

Our chamber membership can't wait to have Mike as our speaker again. The audience will appreciate him for a third time.

Respectfully,

Lynn Snodgrass  
CEO  
Gresham Area Chamber of Commerce and Visitors Center
