Dr. DeVolder has engaged and delighted audiences from Monaco to Dubai, from Singapore to Barcelona and from Istanbul to Kuala Lumpur. Mark DeVolder’s high-octane, content-rich and humor-filled presentations empower people to be bold, nimble and innovative in face of constant change.

Known by his clients as the Change Specialist, Dr. DeVolder is recognized as one of today’s original thinkers and motivators on transitions: Mark explains that change initiatives fail because of people, not programs. Similarly, changes are more likely to succeed when people are empowered through transitions. Consequently, DeVolder teaches leaders and organizations how to adapt, transform and reinvent themselves in the hurricane of change.

Keynotes

Harness the Hurricane: Adapt to Extreme Change and Achieve New Heights

Change is constant, unpredictable and accelerating. Extreme change can - much like a hurricane - leave you dizzy, disoriented and dazed, as though the earth is moving under your feet. Even if you survive the storm, you know more is coming.

Mark DeVolder throws a lifeline to you with change strategies and tools he’s developed to clear away the fog. He equips audiences with cutting-edge principles that energize people in the midst of change.

During Mark’s high-octane presentation, you will receive tools and techniques to:
- overcome change paralysis and get mobilized through transitions
- develop change-ready thinking and behaviours
- become more nimble and flexible with the Shift-ability decision-making model
- adapt to change saturation by unleashing the unstoppable power of resilience

On Fire! Energized Together

When individuals lose their spark, organizations lose their fire. This predicament has a devastating effect on productivity, profitability and company reputation.

But it doesn’t have to be that way. Mark’s test-driven model of engagement equips people to identify the causes of “flame out” and recognize behaviours and leadership decisions that act as a fire extinguisher.

Mark shows leaders how to:
- identify behaviors to increase engagement
- re-ignite employee’s passion for teamwork, communication and innovation
- build a culture of trust, loyalty and appreciation
- accelerate performance and productivity

Resilience Springing to Success

We live in a VUCA world: volatile, uncertain, complex and ambiguous. It’s not surprising that leaders who survive, thrive and deliver in business today have one trait in common; they are resilient. But resilience is not just for a few; it can be learned. Mark shares how to rewire your brain to bounce back from adversity, overcome obstacles and adapt to constant change. Audiences will learn success strategies to create a winning mindset, increase tenacity and decision-making instinct.
