April 2021

Hi Diane,

Thank you for your uplifting and very useful presentation to our Chapter. In a word, it was magical!

I could see from everyone's reactions how much your message resonated. You have such a unique set of gifts to feed both head and heart. We were all touched and inspired to apply these new insights!

All week I've been calling to mind your flow techniques and feel it's helped me be more present. So I'll look forward to future collaborations where we can spread your great work!

Thanks,
