## CONSULTING™

Contagious Consulting™ is the process of uncovering WHAT'S not working in employee development, resolving the WHY, figuring out the HOW and helping you easily implement the FIX.

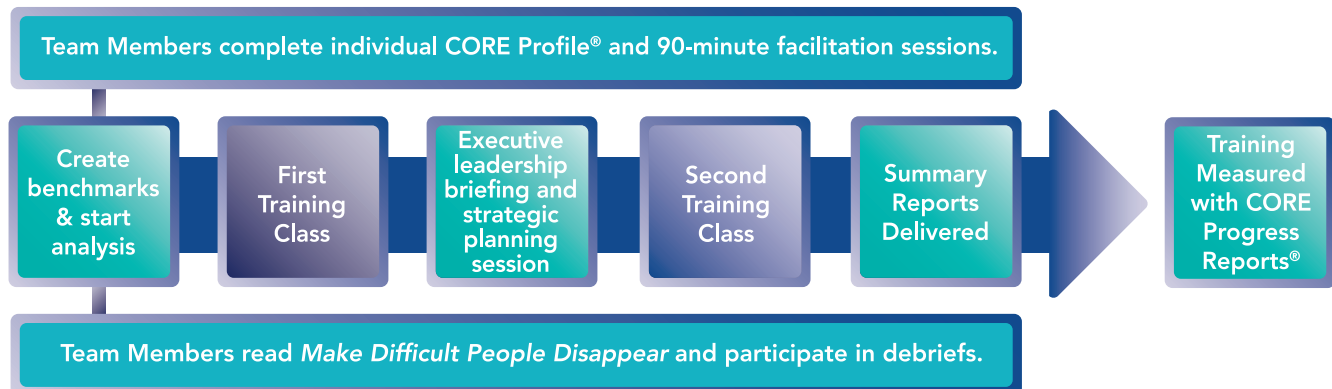

### THE PROBLEM:

When your organization or department is suffering from **low morale, low revenue, high attrition, or poor performance**, the root of the problem is often lack of employee, sales team and/or leader development. The problem may be in job fit, role clarity, skill-gaps, or current criteria listed for filling a vacancy, but when you're IN it, you're too close to FIX it.

Contagious Consulting™ provides an ideal combination of objective analysis, implementation and measurement. Deliverables can include CORE Profiles®, Training Courses, Strategic Plans, and Comprehensive Team Reports and Measurement Tools.

### THE BENEFITS: CLARITY, SOLUTIONS, SUSTAINABILITY, RESULTS

### THE PROCESS:

When you're ready to improve how team members treat each other, how effective they are in their jobs, the strength of your "bench", your customer comments, or sales results let us guide you to and through those goals with minimal stress and downtime. We develop their skills while you reap the rewards of long lasting results!

**Think of what it's costing you to NOT fix the problem.**
