

Karen Tui Boyes

"We appreciate your wisdom, enthusiasm, ability to open our minds and love of all things teaching and learning."

Bayfield School

Karen Tui Boyes, B.Ed, Dip.Tch, CSP, is an expert in teaching and learning. She is one of **fewer than 12% of speakers globally** who hold the designation of CSP (Certified Speaking Professional), the international measure of excellence for professional competence, proven experience and **optimal client satisfaction**.

Karen combines classroom teaching experience with years of research and learning to engage audiences across the world. Two times **Educator of the Year winner**, Karen works with Teachers and students who want to be at the **cutting edge of learning**.

Karen is an **expert in effective teaching and learning, study skills, motivation and positive thinking** and turns the latest educational research into **easy-to-implement strategies** and techniques. She has the rare ability to draw her audience in and keep them enthralled.

Karen's client resources including her books 'Creating An Effective Learning Environment' and 'Study Smart' as well as posters and a board game, provide a **rich resource of strategies and tools** to ensure both teacher and student success.

Champion for Life Long Learning

Presentation Topics include:

Promoting Student Independence: Simple practices to encourage students to be self-directed, scaffold independence and take increasing responsibility for their learning.

Teaching with Thinking Dispositions: Unpack the fundamentals of true learning and growth with the Habits of Mind to enhance life long learning.

The Psychology of Learning: Explore effective classroom environments, student engagement strategies, the many ways the brain learns and remembers and how bridge the gap between teaching and learning.

Enhancing Thoughtful Classroom Dialogue: Ways to make classroom conversation meaningful, sustain student's thinking and improve listening skills.

Creating a Culture of Thinking: Explore how thinking routines can transform students depth of thinking alongside creating an effective learning environment.
