

Fully Alive Leadership®

Success in leadership is all about drawing out the best - the A-Game - from those who look to us for leadership. That's especially important in this age of new and expanded uncertainty that has employees anxious all the time. The demand for us to be the best leaders we can be has never been greater.

Fully Alive Leadership® is about how we show up as we do the smart things we do as leaders and how we can influence people to give their A-Game. In this program we will identify what is important - what we want to expand - and then have a look at **Ten Critical Leadership Lessons**. These Lessons have enormous impact on those who look to us for leadership and mastering them will open doors and expand opportunities.

In this highly interactive workshop, using stories and video, attendees discover how their leadership and success are a function of the way they show up with everyone in their lives. We'll identify **Stuff That Gets In Our Way**, things we've seen as obstacles and that we can eliminate to open new possibilities for greater success. **Fully Alive Leadership®** is about being the greatest leaders we can be and creating the success we want.

Each attendee will leave with:

- ✓ Clarity about **Ten Critical Leadership Lessons** that influence others to give their A-Game and create success.
- ✓ New insight to **Stuff That Gets In Our Way** and how to eliminate it.
- ✓ Laser focus on what is important and the specific actions to create success.

Jack Altschuler has been a successful entrepreneur, industry leader, facilitator and speaker. His vision for fully living life is focused on sharing his passion and encouraging us to be the greatest leaders we can be.
