Captain Carey,

I hope this note finds you and your family well.

I cannot believe it's already been one week since your resounding, successful key note address to our Chase Plastics team members and valued suppliers.

Thank you very much for your very kind words below. We are extremely humble and grateful. Our organization is so blessed and fortunate to have such great people throughout all facets of our business. It amazes me daily how far we've come but we're really just getting started. We have much more to give back to our team and our great country.

Your contributions were countless. During our Thursday team members event and supplier exposition there was a positive buzz by all the entire day. We've had some incredible professionals speak to our group over the years and all thought you were the best!

I love your paragraph on complacency. Would you mind if I used a few of your comments during next month's BOD meeting?

Thank you again for your kind words. Carole and I very blessed to have two great children that are now young adults and blazing their own paths down life's trail.

Take care Dave, be safe and please let me know if I ever can be of service!

God bless you, Mr. Trump and America!
