Good [morning/afternoon/evening], everyone!

We live in a time when many successful professionals have climbed to the top of their mountains, only to discover it's not the summit they truly seek. Today's speaker understands this journey intimately.

Donna made the courageous choice to lay down her corporate crown and become what she calls a "Soul Catalyst." With a Master's degree in Spiritual Psychology, she's now the founder of Consciousness Rising, Inc., best-selling author, and creator of the Higher Human Integration™ healing modality.

Her best-selling book "The Queen Bee: Embody Your Truth & Live Fully Expressed" and her subsequent work "Original Wisdom: Harness the Power of the Authentic You" demonstrate her unique ability to bridge corporate excellence with spiritual wisdom.
