AI Unleashed - Threat to Humans?

Handout (Note: Do Your Own Research & Dig in for the Truth)

Concerns about Tech & AI and our Families

- We are a Global Community now more than ever – Netizens
- Physical Boundaries no longer matter as much as a jurisdiction – Web3.0 (EU)
- Rules, Policies are changing quickly without conventional Rule of Law
- [The Social Dilemma – Tristan Harris](https://www.youtube.com/watch?v=uaaC57tcci0) - <https://www.youtube.com/watch?v=uaaC57tcci0>
- [The AI Dilemma – Humane Technology](https://www.youtube.com/watch?v=xoVJKj8lcNQ) - <https://www.youtube.com/watch?v=xoVJKj8lcNQ>
- AI is a disruptor of sorts....changing the way we do things
 - Workforce – up to 70% of humans replaced. Programming skills will not be needed
 - Education – flipped the education system upside down for some teachers
- Already pervades every facet of society and is changing and developing faster than any technology we have had plus, it is changing with plugins and AI interfaces that communicate and interact with you and I every day!
- In fact, AI is growing and changing faster than our defenses, laws, or responses can adapt. Glenn Beck says, "double exponential!"

[Glenn Beck on Tristan Harris](#) [Tristan Harris and The Humane Technology](#)

Who is in Control?

- Open AI – Sam Altman/CEO
- WEF
 - Klaus Schwab – [Comprehensive Cyber Attack](#)
 - Yuval Noah Harari – Advisor to Klaus Schwab
 - [Humans are Hackable Animals](#)
 - [FREE Will is over](#) – Manipulation
 - [Transhumanism](#) – Borg or Cyborg - last generation of Homosapiens
- [WHO – Tedros on CBDC](#)
- [Aldi – QR Scan and Go](#)
- [Elon Musk – on ChatGPT](#)

Sam Altman, Steve Wozniak & Elon Must all say we need to put a temporary halt on AI!

AI of its own Admission

- I asked ChatGPT: ["Should children trust AI?"](#)
- Biased Responses
- Not always accurate (Legal/Medical/Research Errors)
- Not always Truthful
- AI Has limitations
- Knowledge, but not wisdom?
- "Data and Privacy Concerns Exist"

[ChatGPT = Response & Advice for Avatar Mother](#)

- Open Communications
- Set Clear Rules & Boundaries
- Be a Role Model
- Encourage Alternative Activities
- Create Tech-FREE Zones
- Explore Parental Control Options
- Encourage Social Interactions
- Designate Device-FREE time
- Support Healthy Habits
- Seek Professional Help if Needed
- "...empathy and understanding. Encourage your children to see value in maintaining a healthy balance between technology and other aspects of life."

Solution - So What Do We Do Now?

1st - **Lead with Character First** - Bring in Character Coaches that focus on coaching and teaching Character Driven Leadership

2nd - **Join membership, where you form a community of like-minded people** to weather the storms that are coming. Build Human Relationships!

3rd - **Take classes on character, leadership, and partner with people who know the Tech Dangers like AI.** Especially AI & Technology so you know how to protect yourself, family, and friends in terms of privacy, security and fight addiction

4th - **Elect representatives that understand technology**

5th - **Make friends and be CLEAR on who your REAL enemies are,** then build boundaries! (i.e., keep out WHO, WEF, Social Media, anti-Republic Government, CBDCs, and many more)

6th - **Do Your Own Research!** Be dedicated and hungry to learn the Truth! Don't just Trust....Verify!

7th - **Be HUMAN again and Be HUMANE!** Hug, Handshake, Highfive one another. Be Compassionate. Show Empathy. Be Caring. Be Kind!

LEAD and LIVE with Character First! AI can't do that!
