

YAHNE SNEED | LEAD IDENTITY ARCHITECT

Keynote Speaker | Trauma-to-Strength Expert

AUTHORITY & CREDENTIALS

Overcoming trauma, Yahne Sneed pioneers Identity Architecture. With a Bachelor's in Social Work and NLP certification, she empowers women over 30 to reclaim their identities.

Her Arch Methodology builds the 'five pillars' of Identity Architecture: Post-Traumatic Growth, Living Gnosis, Conflict Theory, Quantum Epigenetics, and Architectural Logistics.

Yahne blends ancient Gnosis with modern science, guiding women to transform wounds into strengths.

ARCHITECTURAL STRENGTH: REBUILDING THE SOVEREIGN SELF

Brace yourself for Yahne Sneed's electrifying keynote on the ARCH methodology! While most preach resilience as a "bounce back" trick, real Lead Architects know it's all about building forward.

Get ready for blueprints on life-auditing, tweaking stress with 432 Hz science, and mastering "Defensive Architecture" to safeguard your sovereignty. This keynote delivers practical frameworks that transform trauma into transformational power, giving attendees the tools to architect their most authentic lives.

Location: Travel from NYC/NJ Area

AUDIENCE TRANSFORMATION: THE BUILD

- The Structural Audit: Conduct a forensic "site survey" to separate inherited debris from your foundational stone. Identify exactly what must be demolished to make room for your Sovereign Self.
- Quantum Epigenetics: Recalibrate biological stress codes and cellular memories through 432 Hz science. Learn to shift your internal frequency to stabilize the body for the "Rise."
- Defensive Architecture: Implement rigorous boundaries (Defensive Architecture) to safeguard your new foundation and protect your purpose from external "Constructs" and overreach.
