

SOLUTIONISTS INTERNATIONAL CONSULTING

Leaders develop daily, not in a day.

- John Maxwell

Solutionists International Consulting supports leaders and organizations navigating complexity, transition, and growth—without losing sight of people or purpose.

Led by Dr. Heather, a seasoned leadership consultant and keynote speaker with over 20 years of cross-sector experience, Solutionists International delivers customized solutions that strengthen leadership capacity, team cohesion, and organizational effectiveness. Engagements span healthcare, STEMM, higher education, professional associations, and nonprofit organizations.

Our services complement your existing initiatives—they're designed to enhance, not replace, what's already working.

Services include speaking, leadership development, executive coaching, strategic consulting, process and program evaluation, interim leadership support, and proposal and grant development. Each engagement is tailored, practical, and designed for real-world implementation.

The result: clearer decision-making, healthier teams, and leaders equipped to sustain impact over time.
