Room Set-Up:

Here are some suggestions to optimize your event with Rory's presentation:

1. Hold the event in the smallest room which will comfortably hold all your attendees. A closer atmosphere makes for a much better energy and crowd dynamic. The key is to have as little open space as possible.
2. If the event will be held in a ballroom or similar room be sure to have the stage as close to the audience as is reasonably possible. You don't want a large space between the stage and the first row. Closer proximity makes for a better connection between performer and audience.
3. If the audience is seated at tables, set the tables as close together as possible, allowing of course for walking and servers, as this, again, creates a better energy in the room.

Technical:

Stage:

- Minimum suggested stage size: 12 feet wide x 12 feet deep
- Carpet or area rug(if available)

Masking:

- Standard existing black masking - No special hangs required

Lighting:

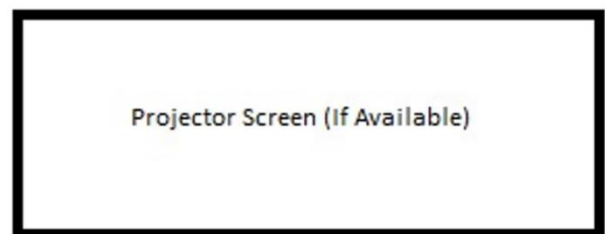

- General warm wash Area lighting center stage.
- Spotlight is ideal, but not required.

Sound:

- 1 vocal mic(wireless ideal) on a boom stand
- 1 DI Box for guitar

Crew:

- One (1) Light & Sound operator

AUDIENCE
