

## Tech & AV Wishes

1. Amanda needs her MacBook Pro laptop with a built-in HDMI port at her fingertips on a podium to run the super interactive tech wizardry behind the scenes.
2. She will also need access, ideally, to a hard-wired ethernet internet connection or secure Wi-Fi, separate from the audience Wi-Fi, as a second option.
3. Participants will use their phones/tablets/computers to participate with Mentimeter (a platform, not PowerPoint, that allows every audience member to share their ideas simultaneously); ideally, they'll have access to free Wi-Fi.
4. She prefers a wireless hands-free lavalier or over-the-ear wireless microphone – handheld mics do not work because Amanda needs to be able to talk and type.
5. Since the audience is the star of the show, the house/room lights should be nice and bright.
6. Early in the day or later the day before, Amanda would like to set up a tech check to ensure the tech works with the house and AV tech.
7. Walk-on song preference is the refrain of High Hopes by Panic! At The Disco.
